ALL ABOUT PHARMA

THE AGENDA

TRENDS IN LIFE SCIENCE

Get the highs and lows of an ever changing and expanding industry – and let's discuss the challenges companies are facing.

RESEARCH & DEVELOPMENT

Pick up on how companies move from early compound identification to demonstrating safety and efficacy in drug products. Get the bigger picture via interesting case stories!

PRODUCTION & SUPPLY CHAIN MANAGEMENT

Production works wonders! Learn how all the good research innovation and drug development is transformed into real products. Get the details straight from the production lines.

SALES & MARKETING

Now the excellent products are in warehouses, let's investigate and discuss how companies actually get their products to market for the benefit of the patients.
