BASE ACADEMY

WHY?

- Improve your performance and your peer network
- Upgrade your business understanding
- Navigate with less effort in a complex industry

WHAT?

We invite you to take deep-dives into the key functions and discuss the interconnected nature of.....

- **TRENDS IN LIFE SCIENCE**
- **RESEARCH & DEVELOPMENT**
- **PRODUCTION & SUPPLY CHAIN MANAGEMENT**
- **SALES & MARKETING**

Expect engaged speakers, access to high-quality resources, thought-provoking discussions and case stories from the real world.

WHO?

We welcome employees from all parts of the life science industry:

- New hires striving to upgrade their business insights and general knowledge about the industry.
- Employees/managers in transition to cross org. roles where a general overview is needed.

BASE ACADEMY

ALL ABOUT PHARMA
THE AGENDA

TRENDS IN LIFE SCIENCE

Get the highs and lows of an ever changing and expanding industry – and let's discuss the challenges companies are facing.

RESEARCH & DEVELOPMENT

Pick up on how companies move from early compound identification to demonstrating safety and efficacy in drug products. Get the bigger picture via interesting case stories!

PRODUCTION & SUPPLY CHAIN MANAGEMENT

Production works wonders! Learn how all the good research innovation and drug development is transformed into real products. Get the details straight from the productions lines.

SALES & MARKETING

Now the excellent products are in warehouses, let's investigate and discuss how companies actually get their products to market for the benefit of the patients.
